

Sales Training Session Report

Candidate:	verify_user_8db7bc2f
Date:	January 06, 2026 at 10:29 AM
Category:	Sales Objections
Difficulty:	field-ready
Duration:	15 minutes
Overall Score:	8.5/10

Performance Analysis & Feedback

Question	Your Answer	Expected Answer
How often should the system be serviced?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	Every 3-4 weeks for cleaning and re-bonding.

Question	Your Answer	Expected Answer
Why is a hair system better than a transplant for immediate results?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	Transplants take months to grow and depend on donor area; systems are instant and guarantee density.
What determines the lifespan of a hair patch?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	The base material (thin skin vs monofilament) and care routine.
How do you handle a customer who says "It looks fake"?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	Acknowledge concern, show before/afters, explain hairline technology.

Question	Your Answer	Expected Answer
What is the price range for a standard system?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	Varies by quality, typically 15k to 50k depending on base and hair type.
How often should the system be serviced?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	Every 3-4 weeks for cleaning and re-bonding.
Why is a hair system better than a transplant for immediate results?	This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report. This is a simulated answer that is quite long to test text wrapping in the PDF report.	Transplants take months to grow and depend on donor area; systems are instant and guarantee density.
